AM Eastwood
Hard Red Winter

Key Points:

- High yielding across the Plains
- Superior performance vs its early maturity class
- Top rated head scab resistance for HRW
- Solid test weight & protein scores
- Medium coleoptile, 2.5 inches
- Good response to high management
- Good tolerance to WSMV & acid soils

AM Eastwood is a high yielding, early variety that is widely adapted for dryland and irrigated acres. This variety showcases a powerful combination to produce top-end yields and deliver toughness when needed. AM Eastwood has a reliable set of agronomics that checks all the boxes: strong standability in the field, industry leading head scab, dependable stripe rust protection, heavy test weight, high protein levels, and more! Growers looking for a tough variety that can deliver bin-busting yields will enjoy planting AM Eastwood.
