- **Best behind soybeans**

AM 492 is a very early product with top-of-the-line test weight AND yield for the South. AM 492 tillers well and joints early, making it a better fit for later plantings. This product works well across a wide range of soil profiles. Our data has shown that AM 492 provides a high ROI for a fungicide application at bloom. Growers will be impressed with the huge grain heads and attractive looks at harvest!
